WHY COMPARE YOUR PENSION SCHEME?

Not all pension schemes are the same. This comparison tool will give you an idea of the differences between two pension schemes. For example, it will show you what you will and what you will not receive. See what the differences are and what this means for you. Then you can decide to arrange something yourself. Knowing the differences is one of the steps in your choice about transferring accrued benefits: do you take your pension with you to your new pension provider or not?
